**Subject:** FW: OSP Weekly Report for April 11-15, 2016

This is what I have for this week.

+++++

**OSP Weekly Report**  
**Week of April 11-15, 2016**

**Tire Crumb**

- As a follow up to the April 7 call with EPA, CDC, CPSC and the European Chemicals Agency (ECHA), ECHA contacted the Fédération Internationale de Football Association (FIFA) to discuss the US federal research strategy for tire crumb and a possible collaboration with FIFA. The US and ECHA will have a follow up call in mid-May to discuss this possible collaboration and research updates.
- This April 12 federal webinar, for government participants only (federal, state and local agencies), was well-attended. The April 14 webinar is for the general public.
- As part of its outreach activities to support the federal plan, OLEM is gathering information this week from a sports field maintenance and operations manager. OLEM is also scheduling a site visit to the [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] main processing plant in [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] and the [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]] to view the full tire recycling process from receiving the whole scrap tire to grinding it into crumb rubber for sports fields.
